

# Backlit Wavetube Tower Setup

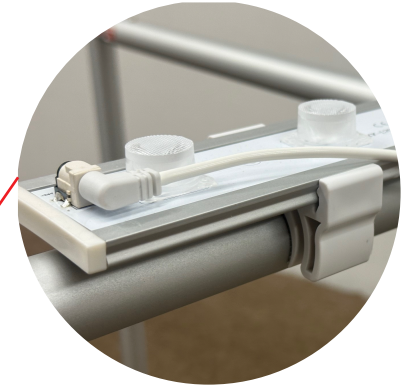

Product code: WTT36x120BL

1.) Assemble frame by matching numbers and snapping together.

2.) Snap one light bar onto upper crossbar facing up and the second light bar onto the bottom crossbar facing up.

3.) Plug long end of "Y" cord into upper light and let it hang down and plug into lower light. Pull the graphic over the frame from the top down.

4.) Plug short end of the "Y" cord into the lower light and the other end into the transformer.
