

ShowGlower Totem

Product Parts

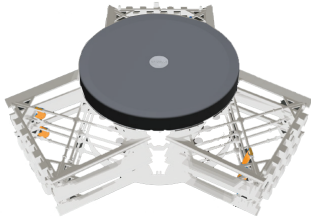

1. Frame
2. Graphic
3. Optional Tabletop
4. Tabletop Screw w/ Plate & Nut

Display Set-up

Step 1

Remove the Frame (1) from the box, lift at the bottom, and place the Frame (1) on a level surface.

Step 2

Raise the Frame (1) by lifting at the top plate, until first knee joint folds out.

Step 3

Click the 3 orange safety clips into the locked position for each raised level.

Step 4

Repeat steps 2 and 3 until your Frame (1) is fully raised.

Step 5

Insert the gasket of the Graphic (2) into one of the two vertical channels on the Frame (1), starting from the top and working your way down. Insert the gasket on the top of the Graphic (2) into the top channel using even tension as you work around the Frame (1), repeat this step on the bottom. Insert the remaining gasket into the second vertical channel starting from the top and working your way down to complete the graphic installation process.

Step 6

Plug in Your ShowGlower Totem to illuminate.

IMPORTANT: If the graphic does not fit, please try again.

As you install the graphic on the top and bottom SEG channels it is very important to keep full tension on the graphic as you work around the circular display. Keeping tight tension will allow for enough material to fully install the graphic on the display.

Assembly for 44" ShowGlower Totem Tabletop Kit or as an option to add to 44" ShowGlower Totem Kit

Place Tabletop (3) on the top of 44" Frame (1). Insert the Screw w/Plate (4) into the hole in the center of the Tabletop (3). Secure the Tabletop (3) to the 44" Frame (1) by tightening the Nut onto the Screw w/ Plate (4).

Note: 44" ShowGlower Totem Can be displayed with or without The Tabletop attachment.

Storage & Care

Store in a cool dry location. To clean non-graphic hardware, wipe with a damp cloth.
